Description

This 24V Neon light is a 10 mm wide Linear LED Strip, covered with a flexible PVC material. Available in 5 meters (16.4 feet) rolls that can be cut every 1.6 in (41.5mm).

The LED Neon Strip lights can be shaped, formed and bend in any direction without damaging the strips and easily fits your application. They provide Neon like glow without any visible dots. Manufactured with high quality, double-hollow air layer for good heat dissipation. Moreover, the Ingress Protection rating of IP66 helps in adopting any weather condition (indoor/outdoor) applications. They can be cut to any size (marked interval points) and rejoined by outdoor-rated connectors.
