

Model: VBUN-S50-12V

LED Type:	12 x 5630 SMD
Rendering Index:	CRI>90
Input Voltage:	12V DC
Power:	5W
Brightness:	400-450 Lm
Lifespan:	>50,000 hours
Fixture Material:	Aluminum
Diffuser Material:	Polycarbonate Plastic
IP Rating:	IP20
Dimmable:	Yes
Installation Type:	Surface Mount
Operating Temperature:	-15°C to +40°C
Cut-Size:	8 mm (0.31 in)
Dimensions:	79 mm x 79 mm (3.11 in x 3.11 in)
Depth:	4 mm (0.16 in)

Notes: _____

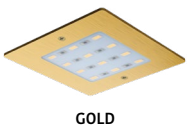

This LED downlight has a dense design with a slim profile of just 4 mm (0.16 inches) depth making it look recessed and seamlessly blends into the surface. This makes it suitable for mounting on any desired location (indoor only). The lightweight aluminum housing can be easily mounted through screws. The downlight uses 5 watts of power, operating on 12V DC. Its modern, sleek design is available in 3 color finish in different color temperatures from amber white, soft white, and warm white tone for soothing light applications to natural white, daylight for offices, and other commercial working spaces. They work with a 12V power supply with low power consumption and high energy efficiency.
